

## **FRIPP ISLAND PUBLIC SERVICE DISTRICT**

### **INITIAL APPLICATION FOR WATER AND SEWER SERVICE**

As owner/contractor (mark out one), I hereby make application for water and sewer service to the property listed below. I agree to comply with the following rules and regulations of the Fripp Island Public Service District:

1. Water and sewer service will be requested at least two (2) weeks prior to the need for water service.
2. The location of the water meter will be on the nearest property line in the vicinity of the existing water service lateral. Any change from this location must be made at the time application is made. **\* THE DRIVEWAY MUST BE FLAGGED BEFORE THE METER WILL BE INSTALLED!**
3. When it is time to connect to the sewer lateral, call the District office at (843) 838-2400 to request location of the sewer lateral. Sewer pipe used from the building to the service connection at the street shall be 4" Schedule 40 PVC pipe. Any other sewer pipe will not be accepted. The sewer pipe may be installed from the street connection to the residence, but **must not** be connected to the building until inspected by the District. A 24-hour notice will be needed to perform an inspection. **THE DISTRICT MUST INSPECT THE CONNECTION PRIOR TO PROVIDING SEWER SERVICE. DO NOT COVER THE SEWER LINE UNTIL IT HAS BEEN INSPECTED BY THE DISTRICT.** If a request for inspection is not received and the sewer pipe is buried, it will be necessary for the contractor to uncover the pipe for this inspection.
4. All new irrigation systems will need a DHEC approved dual check backflow device installed.
5. Any damages to the District's sewer system, water system, water meter or laterals during the construction period will be repaired by the Public Service District and the cost of the repairs will be paid by the applicant upon receipt of an invoice from the Public Service District.
6. It is the responsibility of the applicant to keep the water meter accessible for reading. Any covering by soil, building material, debris, etc. shall be removed by applicant.
7. Water used during the construction period will be billed to the applicant at the established rates to include any minimum or base rates. Bills will be mailed within the first week after the end of a calendar quarter. Payment must be made by the "Due Date" indicated on the bill.
8. Once construction is completed, it is the applicant's responsibility to contact our office at (843) 838-2400 and inform us of the closing date and the owner's name and billing address.

(continued on reverse side)

Failure of the applicant to comply with these rules and regulations will result in termination of water service to the applicant, and service to the applicant at other locations within the District may be denied.

9. A check made payable to the Fripp Island Public Service District for the appropriate water tap fee(see meter listing below), fire flow fee of \$300.00 (not required for irrigation meters), sewer tap fee of \$1,200.00, and \$150.00 deposit for temporary water service must be enclosed with the completed application for service.
